*Kansas Data Science Consortium
(KDSC): Enhancing the Data
Science Capacity of the State of
Kansas*

**Friday, January 27, 2023
11:45AM in Fraser Hall Room 547**

If you are unable to attend in person, please consider joining us
over Zoom: <https://kansas.zoom.us/j/92596964469>
Meeting ID: 925 9696 4469
Passcode: 123456

Data science is a terrific way for students to enhance the experience they get in the discipline of their choice whether that is a social science major, a STEM major, or a humanities major. We are excited about the opportunity to enhance the data science capacity across a number of disciplines and levels of higher education. We want to think about what data science means for an associate's degree and how that looks different for data science in a bachelor's degree. We also want to think about how data science enhances career opportunities and skills for students in master's and PhD programs. This discussion is to encourage conversations about programs the KDSC is growing to serve graduate students.
